IETE, jointly with BEL & C-DOT, is organizing The Second 'IETE International Conference India -2023' (iici-23), on "AI & ML DRIVING 5G & BEYOND - Making 6G & AI in India for The World" from May 03 to 05, 2023 in Bengaluru.

5G & 6G with AI are set to power billions of connections and be the network infrastructure for the Internet of everything. Estimated global economic impact of 5G/6G in new goods and services is likely to reach \$12 trillion by 2035 & estimated to be over one trillion dollars for India, which is aggressively positioning itself to be at the forefront of this new age technology. Finance Minister has allocated funds for setting up of 100 5G labs in this year budget.

This conference attempts to highlight the technological developments in 5G-Advanced, 6G and its Applications with emphasis on the critical role of Artificial Intelligence and Machine Learning. iici-2023 creates a platform for congregation all industries in the domain of 5G / 6G / AI and their extensive applications, which includes established industries, research labs, startups, incubation centres etc.

IICI-23 Conference gives a great opportunity for industries and research organizations, service providers to showcase the products, services, developments to all critical people working managers and engineers, policy & decision makers and all associated with this domain.
